

# WELLAND GOULDSMITH SCHOOL

## K.G WORKSHEET

SUBJECT – SCIENCE

TOPIC- INSECTS

### RECAPITULATION:

In today's lesson we learnt about different kind of insects and their characteristics.

An insect is a very tiny animal that do not have bones, but they have outer covering shell which protects them. Most of the insects consist of six legs, or even more. Insects live in the forest, trees, grass, walls of houses etc.

- **Honey Bee:-** It collects honey from the flowers. It lives in the hive with other bees. It also gives us honey which taste nice and sweet.
- **Butterfly:-** It has a thin body with large coloured wings. The wings have many colours. They love eating sweet nectar (honey) from the flowers. It lives in the garden.
- **Mosquito:-** It has two antennas and six long legs. It lives in the grass, dirty water and at our homes. It loves to drink blood of humans and animals. It is harmful to human health and can cause malaria and dengue.
- **Housefly:-** They have two wings and six legs. They can fly up and down even backwards. They like eating rotten food.
- **Ant:-** It is red and black in colour and has six legs. It collects food and stores them and then eats them later.
- **Cockroach:-** It is black or brownish in colour. They like to eat sweets, meat and leftover food. They are most active at night. They live in warm, dark, wet areas like drains, basements and other corners of the house.
- **Louse:-** It is a small wingless insect that lives in the skin of mammals. They cannot jump, they can only crawl. They feed on human blood.
- **Bed Bug:-** It is an insect that feeds on human blood usually at night. They do not spread disease but their bites can become red and itchy.

Q1) Look at the pictures and write down the name of the insects:

-----

-----

-----

**Q2) Fill in the missing letters:**

**1. a \_\_\_ t**

**2. lo \_\_\_ se**

**3. h \_\_\_ ney bee**

**4. butt \_\_\_ rfly**

**5. mos \_\_\_ uito**

**6. ho \_\_\_ se fly**

**7. c \_\_\_ ckroach**

**8. b \_\_\_ d bug**

**Q3) In your science exercise book write down the name of 8 insects and stick pictures.**
