-SMOKY SMELLS SUCCESS

SYNOPSIS

Children don't we all love to hear ghost stories well this next chapter is about a little spook (ghost). Smoky was a little ghost who lived in an ancient castle in Germany. Smoky was very good at changing his appearances. He would love to disguise as Batman, Superman and many other famous people.

One morning Smoky heard a car pull up in front of the castle. A man and a woman came out of the car looking around very seriously. They were talking about the castle and how old it was and that it may fall down any day and now it was not going to be a tourist destination.

Smoky heard this and was very upset. He loved the castle very much as it was his home and wanted to save it. The two visitors were returning to their car after inspecting the castle when they smelt a wonderful perfume coming from the castle and saw a thin line of smoke floating near the entrance.

"What was that?" it was Smoky, he had done this magic trick to make the two visitors come back to the castle. Smoky had led the visitors into the castle then into a narrow passage that had a hidden chamber and there lay a treasure chest. They opened the treasure chest and it was filled with money. They were so excited and happy now as they could use this money to repair the castle. Smoky was very happy too. The castle was restored and was looking beautiful. Before the castle was opened to the public, the Mayor of the town came to look around the castle and he said that if this castle was haunted and had a ghost it would be perfect. Smoky hearing this laughed with happiness, he was more than happy as he was a ghost. With a flash he appeared as a clown and tickled the Mayor under his chin with a long feather, the Mayor jumped with fright and ran away.

Now Smoky had a wonderful time trying out all his disguises on the hundreds of visitors who came to the castle in search of ghosts. We all love to be scared and love to hear ghost stories no matter how big or small we are.
