

**GEOGRAPHY WORKSHEET**  
**CLASS – 3**  
**CHAPTER 4 – OUR OCCUPATIONS**

An occupation is the work that a person does to earn (get) money. Different people do different kinds of work to earn money. Most people in the Indian villages do farming. It is one of the main occupations of our country. Many people work in industries and depend on farming to make many things. Some people rear (keep) animals for their use. People living near the forests cut down trees and use the wood to make things. Fishing is also another main occupation of the people living near the sea. Some of the fish are sent to other parts of India and to other countries. Mining is another occupation where people dig mines and bring out metals and minerals which are used in the industries to make things. For eg: bicycles and railway engines.
