

CLASS : 3

SUBJECT : COMPUTER SCIENCE

TOPIC : FUN WITH PAINT

WORKSHEET

SYNOPSIS:

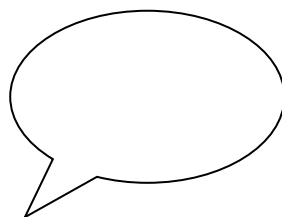

- Paint is a drawing software.
- Paint comes with easy-to-use drawing and coloring tools.
- We can draw on the computer screen with the help of Paint.
- We can start Paint from the Start button.
- The Paint window has many parts like the Paint button, title bar, Ribbon and drawing area.
- The Ribbon has two parts. They are: tabs and groups.
- We can use the Tools and Shapes group to create a drawing. We can use different colors from the Colors group.
- Ready-made shapes like rectangle, oval, triangle and so on can be used from the Shapes group.
- Tools such as curve, line and polygon can be used to draw new shapes.
- The Shapes group contains callout shapes such as Rounded rectangular callout, Oval callout and Cloud callout.
