

**WELLAND GOULDSMITH SCHOOL**  
**CLASS – 2 SCIENCE WORKSHEET ( CHAPTER 7)**  
**TOPIC : FRESH AIR**

**SYNOPSIS :**

Air is all around us. All living things (including plants) need fresh air 24 hours of the day.

We even breathe fresh air when we are asleep. But to have good health we need clean and fresh air.

**1. How fresh air enters our house.**

Fresh air enters our house through open doors and windows.

**2. At outdoor.**

There is plenty of clean and fresh air at clean outdoor areas such as gardens, sea-shores, mountains, forests, etc. When we visit such places or play in the garden or parks we get fresh air.

**3. Growing plants.**

Green plants keep the area fresh and clean.

Having a garden around a house gives clean and fresh air.
