

Welland Gouldsmith School

Class 1

Arithmetic

Problem Sums based on Addition :

Recapitulation :

The teacher explains the problem sums with the help of three different stories. She explains the three key words that are – ‘In all’, ‘Altogether’ and ‘Totally’ to help them find out the answers to the problem sums.

Worksheet :

- 1) Priya buys 36 toffees and 42 samosas for her birthday party. How many items does she buy in all?
- 2) In a class there are 34 boys and 50 girls. How many students are there in the class altogether?
- 3) Ravi painted 345 kites red and he painted 223 kites blue. How many kites did he paint altogether?
- 4) In an orchard there are 133 apple trees and 345 mango trees. How many trees are there in all?
