Welland Gouldsmith School
Mathematics Worksheet
Class 1

1. Smallest and biggest numbers. - When we have a Two digit number, we see the Tens house first. If the numbers are the same, we see the Ones house and accordingly we pick the biggest and smallest number. When we have three digit numbers, we first see the Hundreds house. If the numbers in the Hundred house are different, we are able to choose the biggest / smallest number and do not have to look at the Tens or Ones house. However, if the numbers in the Hundreds house are the same then we look at the numbers in the Tens house and if the numbers in the Tens house are the same we then, look at the numbers in the Ones house to pick the biggest or smallest number.

Exercises to be done in mathematics exercise book.

1. Circle the biggest numbers.

a	6	9	4	1
b	56	24	96	78
c	18	36	65	88
d	119	106	101	190
e	400	100	250	166
f	153	235	424	369

2. Circle the smallest number.

a	9	3	7	1
b	4	6	9	5
c	74	18	38	90
d	365	249	479	120
e	318	103	301	212
f	221	225	228	226

3. Circle the biggest numbers with blue and smallest numbers with red in each row.

a	9	8	7	5
b	56	58	51	57
c	76	83	26	69
d	114	226	358	111
e	444	420	401	499
f	323	329	392	332

4. Colour the group that has more.
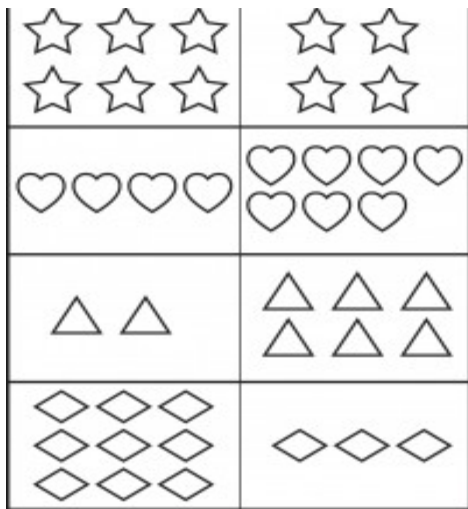

5. Colour the group that has less.
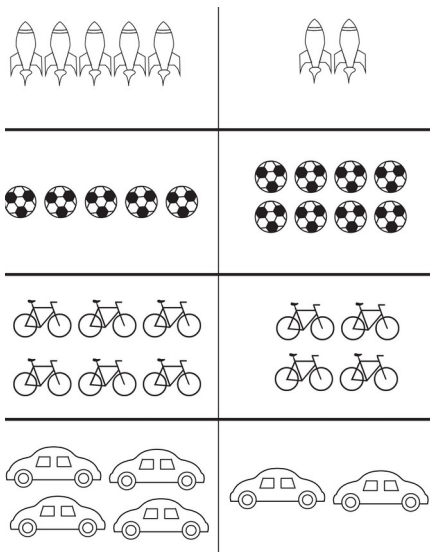

6. Do exercises in Number Magic Book pg16, 17 P and Q, pg 109 S, Pg 110 T and U.
