

Welland Gouldsmith School

Maths Worksheet

Class- II

SYNOPSIS

Addition

Addition is taking two or more numbers and adding them together i.e. it is the total sum of two or more numbers. There are two types of addition Horizontal Addition or Sleeping Line and Vertical Addition or Standing Line.

For example:

Add the numbers using the Horizontal Addition Method.

$$33 + 20 = 53$$

Another example is:

Write in HTO columns and find the sum using the Vertical Addition Method.

$$945 + 123 = ?$$

$$\begin{array}{r} \text{HTO} \\ 945 \\ + 123 \\ \hline 1068 \end{array}$$

- Children please do questions 1, 2 and 3 in your Maths Check Exercise Book

1. Addition (Horizontal Method)

- a) $12 + 17 =$
- b) $41 + 26 =$
- c) $53 + 33 =$
- d) $13 + 62 =$
- e) $84 + 14 =$

2. Addition

$$\begin{array}{r} \text{a) TO} \\ 83 \\ 45 \\ + 21 \\ \hline \hline \end{array}$$

$$\begin{array}{r} \text{b) HTO} \\ 313 \\ 286 \\ + 100 \\ \hline \hline \end{array}$$

$$\begin{array}{r} \text{c) TO} \\ 59 \\ 37 \\ + 2 \\ \hline \hline \end{array}$$

$$\begin{array}{r} \text{d) HTO} \\ 733 \\ + 163 \\ \hline \hline \end{array}$$

$$\begin{array}{r} \text{e) HTO} \\ 674 \\ + 218 \\ \hline \hline \end{array}$$

3. Write in HTO Column and find the sum using the Vertical Method

a) $523 + 374$

b) $456 + 243$

c) $291 + 707$

d) $246 + 483$

e) $809 + 287$

- Children please do Exercise A from page 24 in the Maths Text Book.
- Children please do Exercise A and B from page 30 in the Maths Text Book.
- Children please do Exercise A from page 33 in the Maths Text Book.
