

WELLAND GOULDSMITH SCHOOL

CLASS: 1

SUBJECT: SCIENCE

CHAPTER: 4

ANIMAL LIFE

We see many animals around us .They are of different shapes and sizes.

Some animals are big while some are small. We keep some animals in our homes as pets

Domestic animals help us in many ways . They live on farms. Milch animals give us milk .

Mammals suckle their young ones . Wild animals live freely in jungles.

They may attack us if we go near them. Reptiles creep along the ground or walls.

Amphibians live in or around water. Aquatic animals always live in water. We see many

Kind of birds round us.They have wings which help them to fly . Insects are small animals.

They have six legs and wings.

Work to be done in the science exercise book.

1 . FILL IN THE BLANKS.

a animals live around us. b

. Wild animals live freely in

c . Reptiles along the ground or on the wall.

d . Amphibians live in or around e

animals always live in water.

2 . MATCH THE COLUMN.

I Milch animal a. Jungle

li Wild animals b. Cow

lii Reptiles c. Wings

lv Insects d. Creep

V Birds

e. Six legs

3. ANSWER THE FOLLOWING QUESTIONS.

Q1. What are milch animals?

Q2. What are mammals?

Q3. What are aquatic animals?
