

WELLAND GOULDSMITH SCHOOL, PATULI

CLASS-VIII

CHEMISTRY

ELEMENTS COMPOUNDS AND MIXTURES

WORKSHEET

- I. Give one word for the following: -
1. A metal which is poor conductor of electricity.
 2. A metal which is neither malleable nor ductile.
 3. A soft metal which can be cut with a knife.
 4. A non-metal which is liquid at room temperature.
 5. Substances combines chemically.
- II. Fill in the blanks :-
1. _____ is the smallest particle of a pure substance which can exist freely.
 2. Constituents of compounds cannot be separated by _____ means.
 3. _____ are sonorous.
 4. _____ and _____ are liquid metals.
 5. _____ a non-metal is a good conductor of electricity.
- III. Give two examples for the following:-
1. Metals
 2. Non-metals
 3. Metalloids
 4. Inert gases
