

WELLAND GOULDSMITH SCHOOL

CLASS:V SOCIAL STUDIES(HISTORY)

TOPIC: REVISION 2(ANSWERS)

1. Fill in the blanks:

- a. archaeological, literary
- b. bones, wood
- c. archaeological sites
- d. open, close
- e. weaving, pottery

2. Write 2 sentences on how the following help us learn about early humans. Answers may vary.

- a. fossils – the time period, that is, how far back in time did the early humans live, the changes in physical appearance of early humans.
- b. bones – how early humans moved, how they held their tools.
- c. tools – the materials that the early humans used to make tools, ways in which early humans adapted to their surroundings.

3. Match the following:

- 1. Homo Erectus – 1.9 million and 140,000 years ago
- 2. Australopithecus-3.9 and 2.9 million years ago
- 3. Fire- provided light and kept them warm
- 4. Neolithic Age- change from hunter-gatherers to food producers
- 5. Mesolithic Age- dog, goat, sheep and cattle

4. Answer the questions:

- a. Evolution- The gradual development of something.
- b. Fossils- They are the preserved remains or traces of plants and animals that lived millions of years ago. The remains include footprints, eggs, bones, teeth, shells and so on.

c. The early humans were also known as hunter-gatherers because they could not grow their own food. They moved from one place to another in search of food. They gathered wild berries, fruits, nuts and roots, and hunted animals for their meat.

d. The Chalcolithic Age is also known as the Age of Metals because from this period early humans also began using copper tools along with stone tools.
