Capital letter, full stop, question mark

Capital letter and full stop(.)

Look at the following sentence

The girl is playing the piano.

Now notice the beginning and the end of the sentence .

Here the word The starts with a capital letter because it is the first word in the sentence. The sentence also ends with a full stop because it states clearly what the girl is doing now. Thus we say that **a sentence begins with a capital letter and ends with a full stop**. The pronoun I is written in a capital letter wherever it appears. Example Amit and I are brothers. A proper noun always begins with a capital letter. Example She gave the book to Rohan. Hence the word Rohan is a proper noun as it is a name of the person.

Question mark (?)

A question mark is a type of a punctuation we find at the end of the sentence and we use them when we want to know something. Let us look at the following sentences.

How many cookies did you eat?

What is your favourite colour?

Will you play with me?

These are questions . Notice the symbol used at the end of the sentence. It is called a **question mark**. We begin a question using capital letter and end with a question mark.
