Science Worksheet
Class III

Our Environment
Answer Key

A) Fill in the blanks.

- 1) Pollution means to make **DIRTY** or **UNCLEAN**.
- 2) Our environment has both **LIVING** and **NON - LIVING** things.
- 3) Green plants play an important role in providing **HEALTHY** and **PURE** environment.
- 4) The **ROOTS** of trees hold the **SOIL** together.
- 5) Trees provide us with **SHADE** and produce the **OXYGEN** we breathe.

B) True and False.

- 1) Carve your name on barks of trees. **FALSE**
- 2) Deforestation can lead to landslides. **TRUE**
- 3) Keep public areas clean. **TRUE**
- 4) The leaves of green plants release carbon dioxide. **FALSE**
- 5) Soil is not an important natural resource. **FALSE**

C) Give one word for.

- 1) To make raw things after processing old items - **RECYCLE**
- 2) Washing away of soil - **EROSION**
- 3) A place where a living organism lives - **HABITAT**
- 4) To make the air dirty – **POLLUTION**
- 5) Rubbish – **TRASH**

D) Match the following.

- | | |
|---------------------------|-------------------------|
| 1) Leaves of green plants | c) produce oxygen |
| 2) Plant trees | e) in schools and home |
| 3) Cities | d) are crowded places |
| 4) Paper and pencils | b) are made from trees |
| 5) Plants | a) prevent soil erosion |

E) Answer the following questions.

1) What do you understand by environment?

Ans- Environment is all that surround us.

2) What is soil erosion?

Ans- When the soil becomes loose and gets easily washed away by water or wind is called soil erosion.

3) List three ways by which you can help in keeping the environment clean.

Ans- We can keep the environment clean by (ANY THREE) : -

- **Planting trees in your school and home.**
- **Protect trees planted along roadsides.**
- **Keep public areas clean, do not litter or allow others to do so.**
- **Do not dump garbage in the street.**
- **Recycle waste paper, plastic, metal and glass.**
- **Avoid using plastic materials such as carry bags, which cannot be used again and cause pollution.**
- **Request your family members to use the car only when necessary, walk or use a cycle when distance is short.**
- **Prepare compost by using garbage.**

4) Why are green plants important?

Ans- Green plants are important as they provide a healthy and pure environment as the plants use all the carbon dioxide from the surrounding and provide oxygen.

5) What is recycling?

Ans- Collection of old newspapers and magazines which can be made into new paper again is called recycling.
