

**Welland Gouldsmith School**  
**Science Worksheet**  
**Class III**

**Our Environment**

- Environment is all that surrounds us.
- Both living and non – living things form our environment.
- A place where an organism lives is called its habitat.
- Our environment gets polluted due to human activities.
- Green plants are an important resource to our earth.
- We should help to make our environment clean.

**(Work to be done in Science exercise book)**

**A) Fill in the blanks.**

- 1) Pollution means to make \_\_\_\_\_ or \_\_\_\_\_.
- 2) Our environment has both \_\_\_\_\_ and \_\_\_\_\_ things.
- 3) Green plants play an important role in providing \_\_\_\_\_ and \_\_\_\_\_ environment.
- 4) The \_\_\_\_\_ of trees hold the \_\_\_\_\_ together.
- 5) Trees provide us with \_\_\_\_\_ and produce the \_\_\_\_\_ we breathe.

**B) True and False.**

- 1) Carve your name on barks of trees. \_\_\_\_\_
- 2) Deforestation can lead to landslides. \_\_\_\_\_
- 3) Keep public areas clean. \_\_\_\_\_
- 4) The leaves of green plants release carbon dioxide. \_\_\_\_\_
- 5) Soil is not an important natural resource. \_\_\_\_\_

**C) Give one word for.**

- 1) To make raw things after processing old items -
- 2) Washing away of soil -
- 3) A place where a living organism lives -
- 4) To make the air dirty –
- 5) Rubbish –

**D) Match the following.**

- |                           |                         |
|---------------------------|-------------------------|
| 1) Leaves of green plants | a) prevent soil erosion |
| 2) Plant trees            | b) are made from trees  |
| 3) Cities                 | c) produce oxygen       |
| 4) Paper and pencils      | d) are crowded places   |
| 5) Plants                 | e) in schools and home  |

**E) Answer the following questions.**

- 1) What do you understand by environment?
- 2) What is soil erosion?
- 3) List three ways by which you can help in keeping the environment clean.
- 4) Why are green plants important?
- 5) What is recycling?
