

WELLAND GOULDSMITH SCHOOL
CLASS - 2 SCIENCE WORKSHEET(CHAPTER 1)
TOPIC : KINDS OF PLANTS

RECAPITULATION :

We see many kinds of plants around us. These plants have different shapes and sizes. Some are big and tall whereas some are smaller in size.

- **Trees :** Some plants are very big and strong. They are called Trees. Trees have large and strong stems which are called trunk. Some of these trees are Pine tree and Coconut Tree.
- **Shrubs :** There are some small plants too and they are called Shrubs. They have small and hard stem and they also have many branches. Some of these shrubs are Rose and Jasmine.
- **Herbs :** Herbs are very small and seasonal plants. The word **Seasonal Plants** here means that these plants live for a very short period of time. Herbs are smaller in size than shrubs and have soft stem. Some of the herbs are Spinach and Mint.
- **Climbers (Twiners) :** There are some plants that are very weak and cannot stand on their own. So they always need support. These plants are called Climbers. Some of them are Pea plant and Money Plant.

All these plants do not live for the same period of time. Most of the trees like Mango tree and shrubs like Henna live for many years. But then some other plants like Pea and Maize live for a short period as they are Seasonal Plants.

1. Fill in the blanks using the words given below :

Seasonal, trunk, shapes, Grapevine, shrubs

- a) Plants are of different _____ and sizes.
- b) The stem of a tree is called a _____.
- c) _____ have many branches.
- d) _____ plants live for a very short period.
- e) _____ is a Climber.

2. Write True or False for the following sentences :

- a) Some plants are big and tall.
- b) The big and strong plants are called Herbs.
- c) The Shrubs are very small plants.
- d) All plants do not live for the same length of time.
- e) Herbs are bigger than the Shrubs.

3. Match the following :

<u>Column A</u>	<u>Column B</u>
1. Gulmohar	a. Climber
2. Henna	b. Herb
3. Bittergourd	c. Tree
4. Brinjal	d. Shrub
5. Cabbage	e. Seasonal Plant

4. Answer the following questions :

- a) What are Trees? Name any one tree.
- b) Which plants have small and hard stem?
- c) What are Herbs? Name any one herb.
- d) Name two Climbers.
- e) Name two Seasonal Plants.

5. Draw and name :

- a) Any one Tree
- b) Any one Shrub

Textbook Exercises :

- Page 8 – Exercise A (1 to 4)
- Page 9 – Exercise B (1 to 4), C (1 to 5) and D (1 to 4)
