WRITE A COMPOSITION ON 'NORMAL MILK IS BETTER THAN ANY FLAVORED SUGAR DRINKS FOR CHILDREN.' (ARGUMENTATIVE COMPOSITION)

It seems to me that choosing milk, any kind of milk, is better than choosing soda or other sugary drinks. Some of my friends who bring their lunches to school often need to get a beverage to go with it. They could choose to bring normal milk in chocolate powder instead of buying flavored sugar ones. Giving kids a variety of great-tasting milks such as chocolate, strawberry, vanilla flavored milk seems like a smart way to get them to make a healthy choice.

It is true that the sugar kids eat, is a big concern. According to the American Heart Association, more than two thirds of American children are overweight to the point of obesity. Sugar is one of the causes. The amount of sugar in sweetened beverages easily adds up. Consuming too much sugar can lead to health problems such as unhealthy weight gain and obesity, heart disease, liver problems, diabetes and bone problems. Growth of bacteria in our mouth is caused by sugary drinks which destroys tooth enamel and leads to cavities. Juvenile diabetes stops making insulin, which our body needs to deliver fuel to cells. Soft drinks are artificial and offer nothing nutritional. Nutritionists and other experts do agree on this issue that it is better for kids to drink milk of any kind rather than to consume flavored, sugar drinks. Even experts from both the American Heart Association and the American Academy of Pediatrics also think it is better for kids to drink milk than have sugar drinks.

Milk consists of carbohydrates and fats for energy, proteins for development and repair, as well as several vitamins and minerals that are essential in a diet. The presence of calcium, phosphorus and vitamin D in milk supports the healthy development of bones and teeth in children. Milk is the only option for kids and children to get the calcium and vitamins they need.

1. Internet access must be limited to students. (Argumentative Composition)

Introduction : Decide for or against-For the topic-We are being surrounded by different enhancement in our environment and daily living-All that we need is accessible and easy to use which is why we are being dependent-Helps us to make our daily living easy to deal with.

Body : Internet is very important today because most of the transactions can be found and accessed through internet-Get relevant information needed in our works- Important for students-How helps students.

Conclusion : The Internet can be wonderful for kids-They can use it to research school reports, communicate with teachers and other kids, and play interactive games-Why you feel that internet access should not be limited.

3. An embarrassing moment. (Personal/Reflective Composition)

Introduction : Everybody experiences some embarrassing moments in his or her life. Embarrassing moments are easy to recall and most of the time these make us laugh. My most embarrassing-It was one of my friends' birthday-My friend invited me on the day of her birthday-She invited many of us-Birthday was 21st October- I just forgot the date. Another problem happened that the school was also closed for some occasions-I had no regular communication with my friends-I remembered the date as 22nd October though the date was one day behind-I prepared for the day's celebration and bought an expensive gift for my friend.

Body : While I was buying the gift for my friend, she along with our friends were celebrating the birthday because the date was 21th October-On22nd October, I went to my friend's house with the gift-My reaction was very awkward because I saw neither anybody nor any festive look there-My friend's mom opened the door and became amazed-She asked why I hadn't come yesterday-I got to know yesterday was the Birthday-My friend came out and scolded me for not participating on the birthday celebration. I became dumbfounded and explained everything-I was just embarrassed in front of two people - my friend and his mom-Did not know that worse thing is waiting for me on the next day.

Conclusion : I thought that my embarrassment was ended there, but not-Next day I reached my school-I entered into my classroom, I heard a huge sound of laughter by almost all of my friends-My friend shared everything about my mistakes on her birthday-I felt very shy and was about to cry-I think this is the most embarrassing moment in my life. I have never ever experienced that sort of a situation again.

MODEL COMPOSITION

WRITE AN ESSAY ON POVERTY (FACTUAL COMPOSITION)

We can define poverty as the condition where the basic needs of a family, like food, shelter, clothing, and education are not fulfilled. It can lead to other problems like poor education, unemployment, etc. A poor person is not able to get education due to lack of money and

therefore remains unemployed. An unemployed person is not able to buy enough & nutritious food for his family and their health decline.

According to the Noble prize winner South African leader, Nelson Mandela – “Poverty is not natural, it is manmade”. There are various causes of poverty but the most important is population. Rising population is putting the burden on the resources & budget of countries. Governments are finding difficult to provide food, shelter & employment to the rising population. The other causes are- lack of education, war, natural disaster, lack of employment, etc. For instance- lack of employment opportunities makes a person jobless & he is not able to earn enough to fulfill the basic necessities of his family & becomes poor. Natural disasters like flood, earthquake also contribute to poverty.

In African countries, a long period of civil war has made poverty widespread. This is because all the resources & money is being spent in war instead of public welfare. Countries like India, Pakistan, Bangladesh, etc. are prone to natural disasters like cyclone, etc. These disasters occur every year causing poverty to rise. Poverty is a social evil, we can also contribute to control it. For example- we can simply donate old clothes to poor people, we can also sponsor the education of a poor child or we can utilize our free time by teaching poor students. Remember before wasting food, somebody is still sleeping hungry.
